HELENA, MONTANA

TIM BABCOCK
GOVERNOR

ALEX B. STEPHENSON
SUPERVISOR

15 May 1963

Honorable Tim Babcock
Governor of Montana
The Capitol
Helena, Montana

Dear Governor:

It is my pleasure to submit to you and the citizens of Montana, the Patrol's Annual Report of Activities and Traffic Accident Analysis for the year 1962.

The year 1962 saw a record-breaking number of miles traveled, when motorists posted a total of 4,752 million miles. It is encouraging to note that in spite of this 10 percent increase, Montana realized a 7 percent reduction in traffic fatalities over 1961, when a record of 275 persons were killed. The 1962 traffic toll of 256 deaths has a twofold impact on the State's welfare and economy. The financial loss of 43½ million dollars presents an insoluble problem, while the irreparable loss of life and personal injuries continues as a threat to the safety and welfare of the people.

The statistical information compiled in this report will be used to arouse public awareness to the problem and give guidance to the department's future accident prevention programs.

Respectfully submitted,

Alex B. Stephenson
ALEX B. STEPHENSON, Supervisor
Montana Highway Patrol

DOUGLAS A. HARDESTY

1915 - 1962

The untimely death of Captain Douglas A. Hardesty on July 31, 1962 left an inconsolable void in our ranks.

"Doug," as he was affectionately known by all his friends, joined the ranks in July 1941 and was stationed in Butte until he enlisted in the United States Navy, as a Chief Petty Officer, on January 19, 1942. He received his honorable discharge on November 15, 1945 and returned to the Patrol the following month. He was reassigned and stationed in Glendive for seven and one-half years, and then transferred to Malta, where he remained for four years until he was selected to attend the Northwestern University Traffic Institute, Evanston, Illinois. After completion of his training, he was reassigned to the Headquarters Office as Director of Safety and Education, and subsequently promoted through the grades to the rank of Captain.

Doug's sincere concern for the safety and welfare of his brother officers, and his loyalty and dedication to his chosen career, are lasting memorials to his memory.

RETIREMENTS DURING THE YEAR

1962

Lynn C. Armstrong
Sergeant

Appointed July 1, 1938
Retired October 11, 1962

William P. Cahill
Captain

Appointed May 1, 1938
Retired September 18, 1962

John A. Garland
Patrolman

Appointed February 13, 1942
Retired June 27, 1962

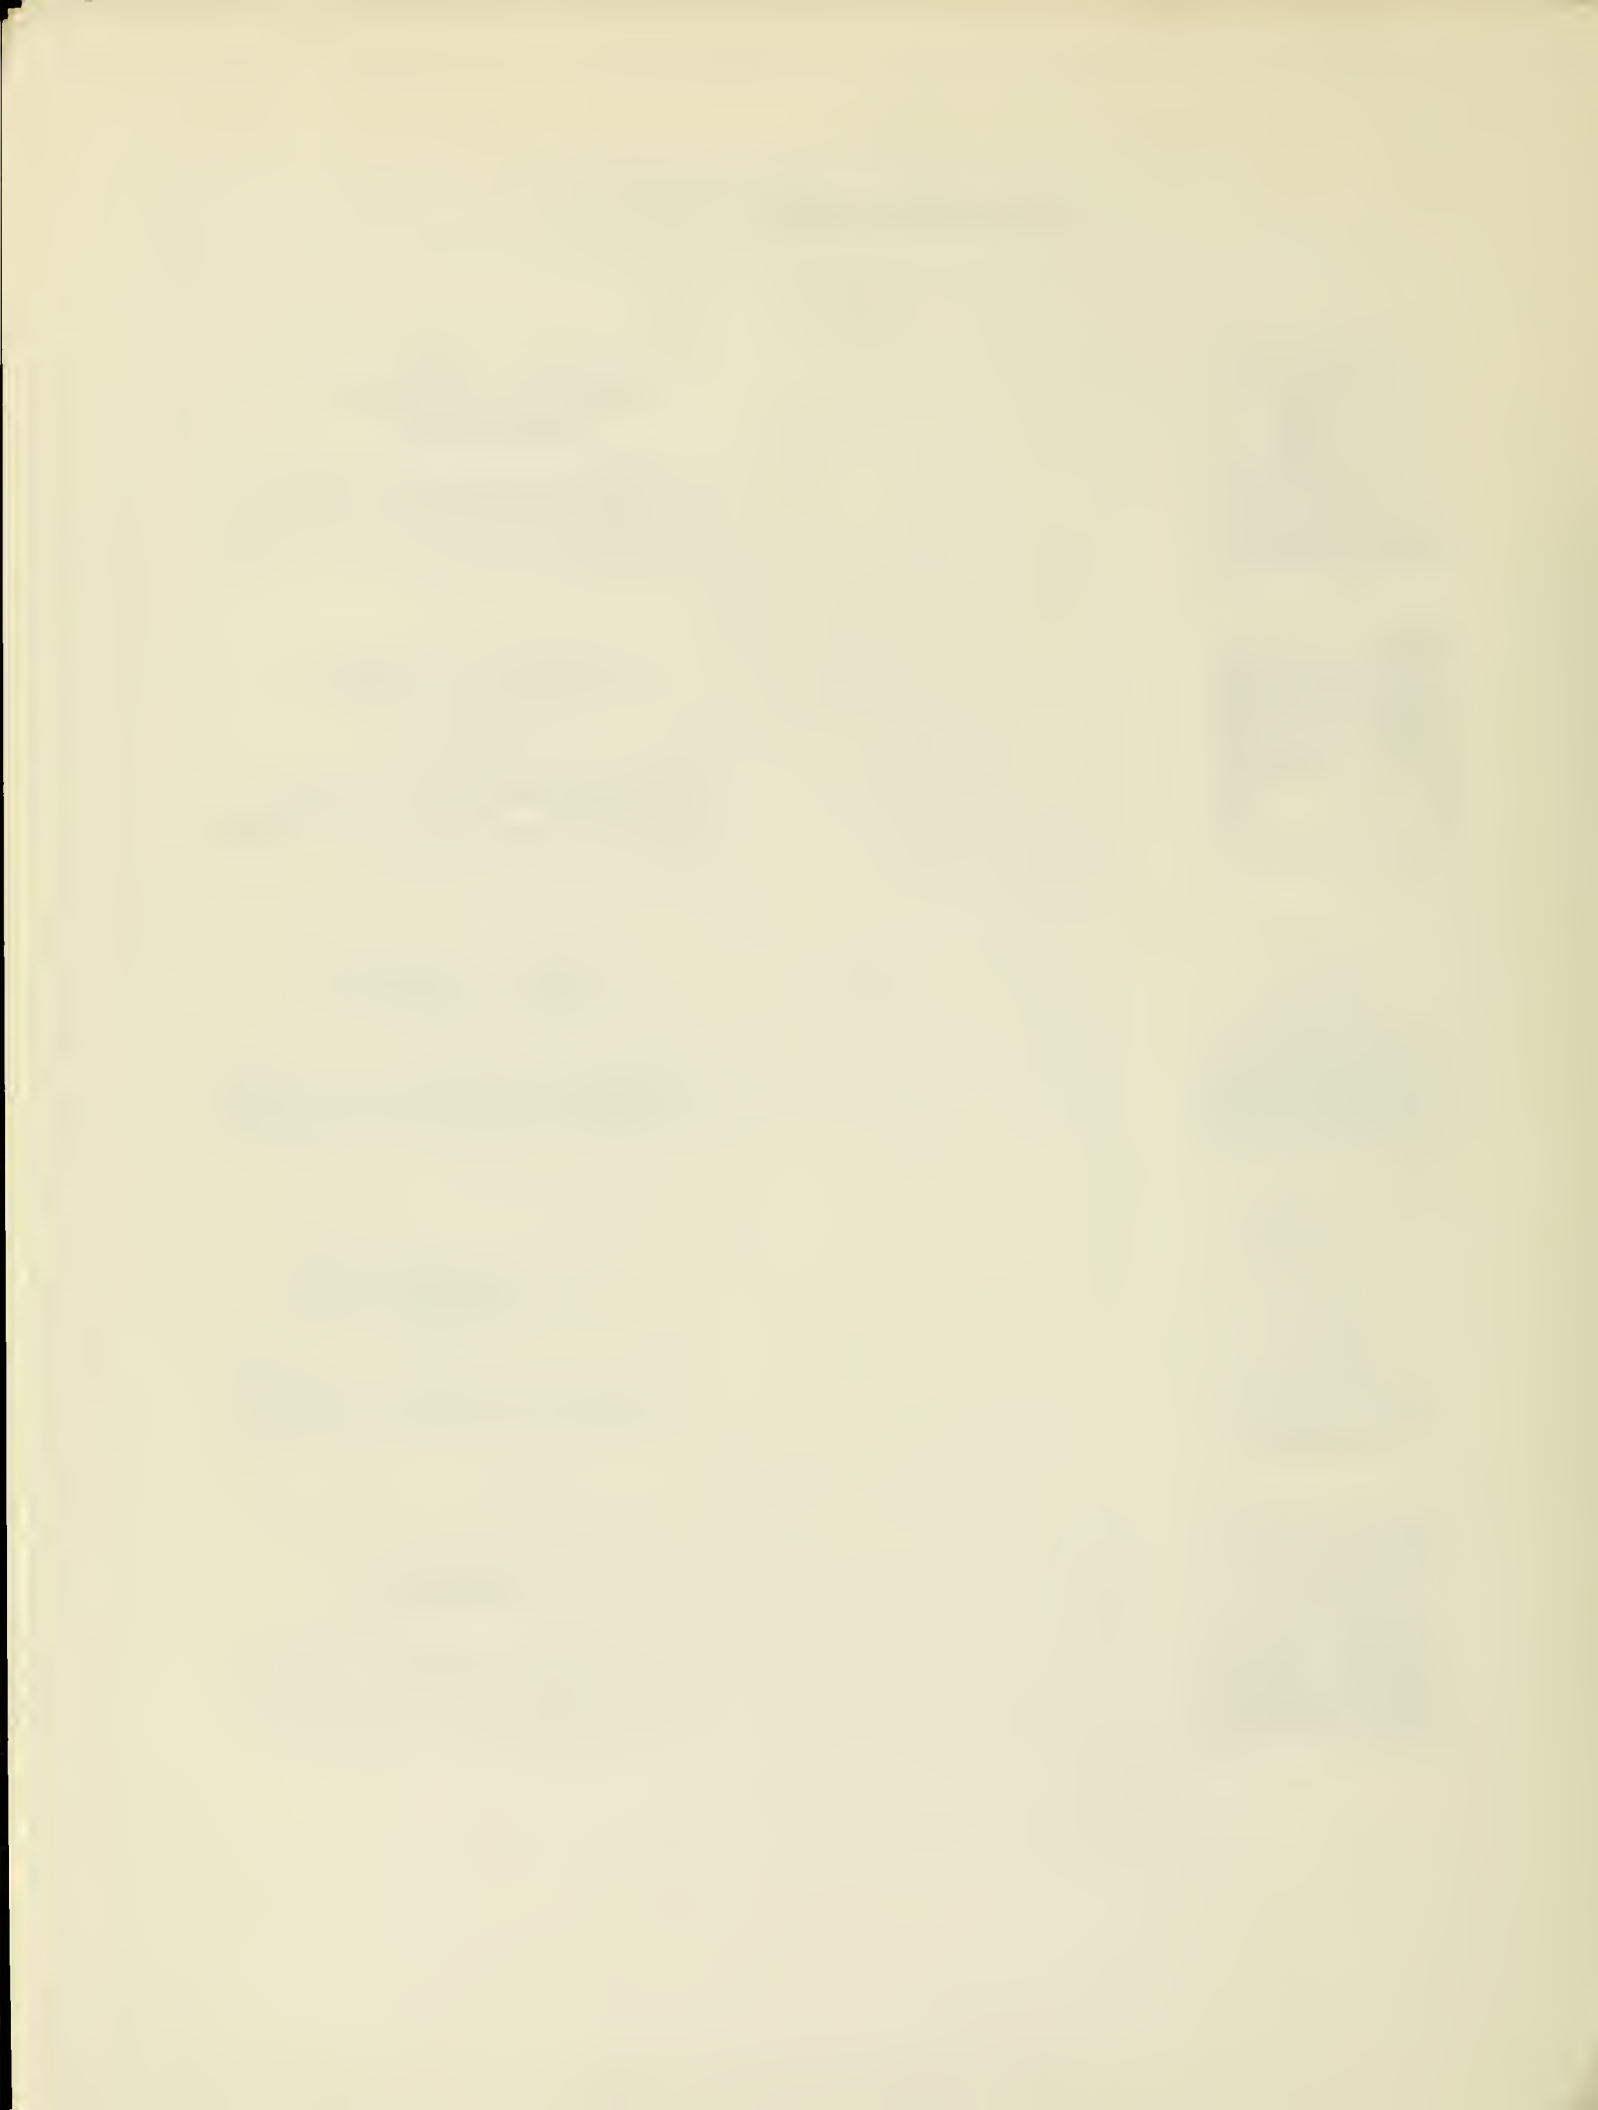

John H. Lindstrand
Sergeant

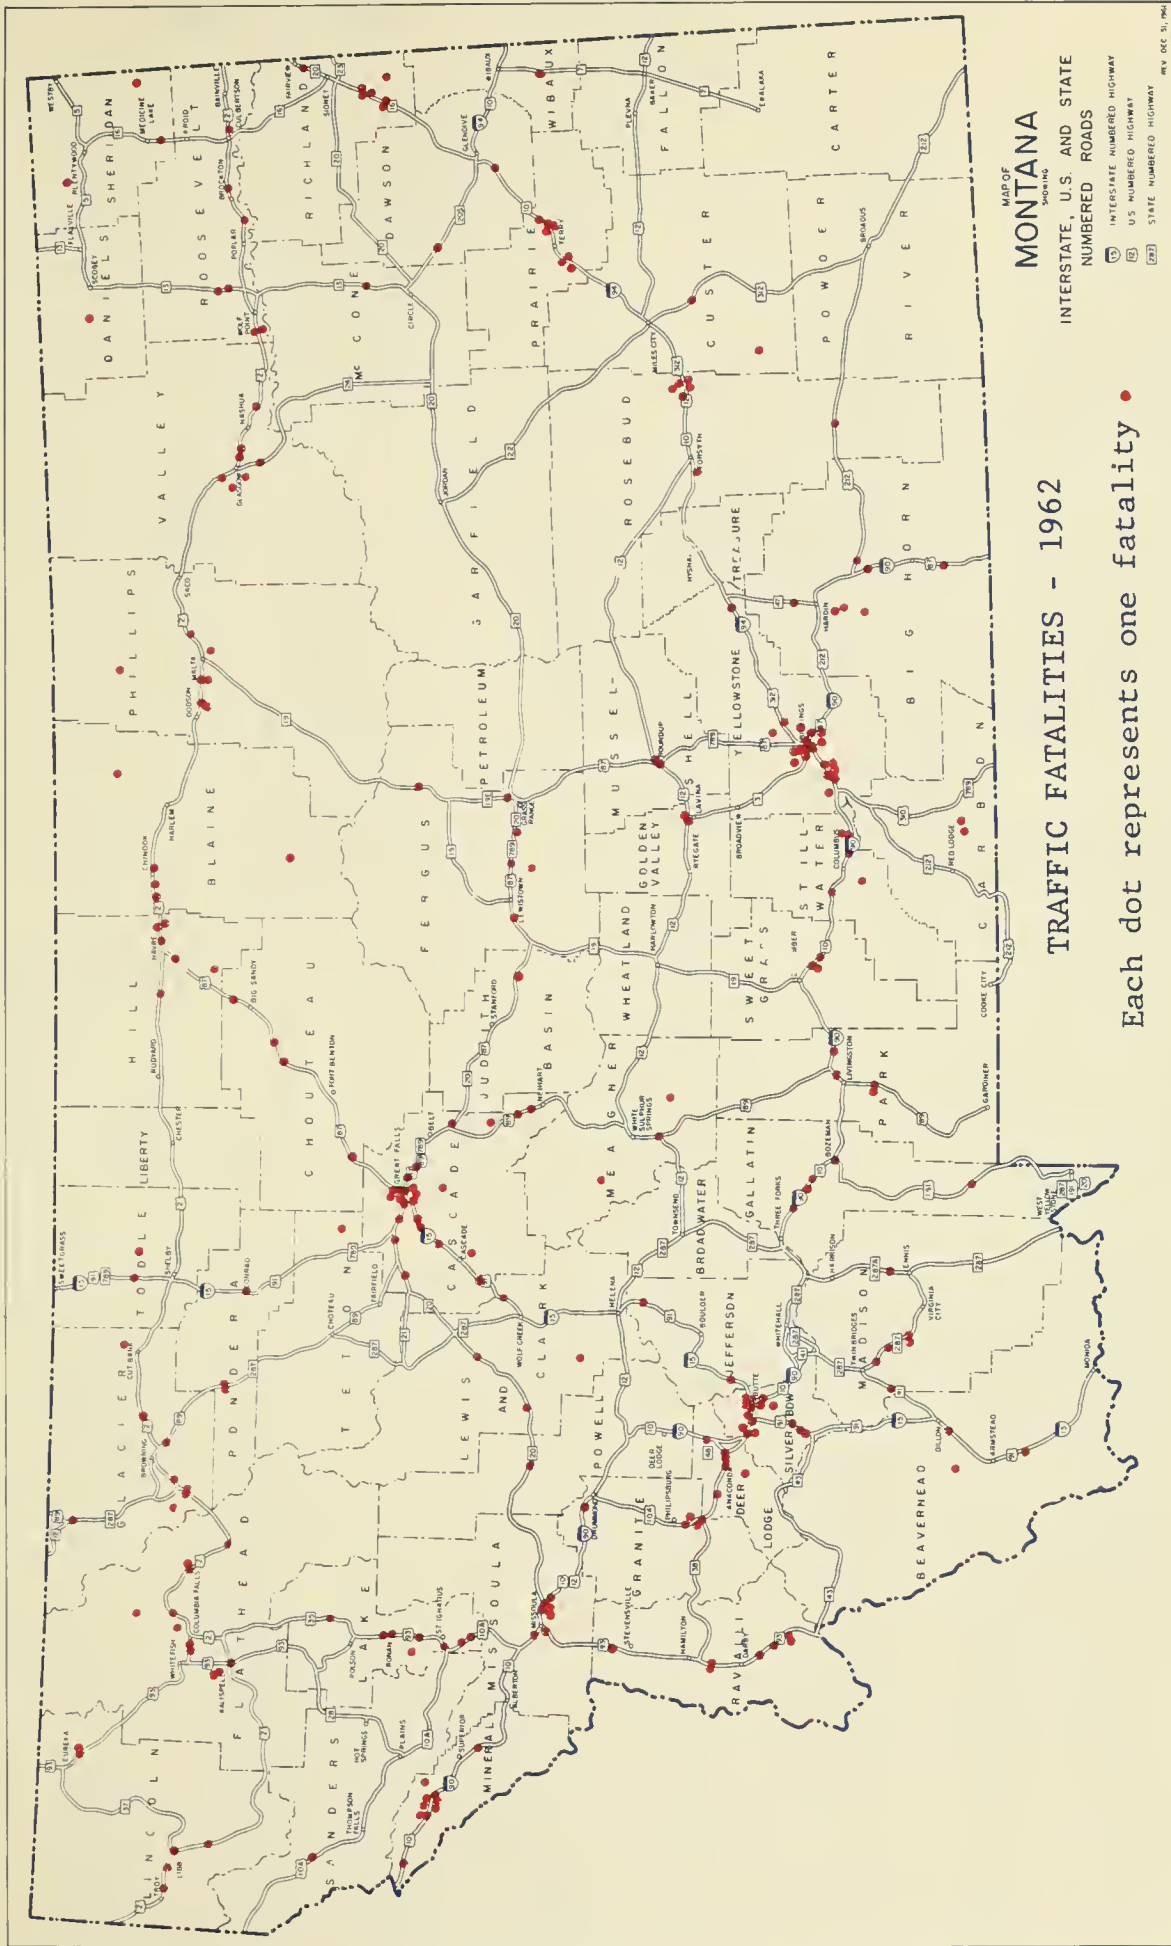

Appointed April 1, 1939
Retired March 3, 1962

Con McClurg, Jr.
Patrolman

Appointed June 1, 1942
Retired June 30, 1962

STANDARD SUMMARY OF MOTOR VEHICLE TRAFFIC ACCIDENTS

National Safety Council
Chicago

In MONTANA

(State)

For DECEMBER 1962

(Month or other period)

1 TYPE OF ACCIDENT	Number of Accidents				Number of Persons			
	Total	Fatal	Non-Fatal	Property Damage	Total Killed	Total Injured	a	b
Motor Vehicle								
1. Ran off road	261	9	98	154	9	132	53	59
2. Overturned on road	10	1	4	5	1	9	7	1

ENFORCEMENT

1962

Montana Highway Patrol officers investigated 4,885 traffic accidents, which was an increase of 12% over the previous year.

**

Montana Highway Patrol officers made 3,010 arrests for moving hazardous violations as the result of accident investigation. This was an increase of 7% over the previous year.

**

Montana Highway Patrol officers made 1,008 arrests for driver license, registration and other non-moving violations as the result of accident investigation. This was an increase of 17% over the previous year.

**

ENFORCEMENT

1962

Montana Highway Patrol officers traveled 4,191,386 miles in patrolling Montana's roads and highways.

**

Montana Highway Patrol officers watched over 441,676 registered vehicles, a ratio of 5,386 registered vehicles per man, and 369,055 licensed drivers, a ratio of 4,500 licensed operators per man. This was in addition to unknown thousands of out-of-state vehicles and drivers that used Montana's highways during the year.

**

Montana Highway Patrol officers inspected 952 school buses engaged in the transportation of school children in the 56 counties of Montana to enforce vehicle code provisions and Montana school transportation rules and regulations concerning school bus equipment and operation.

**

Montana Highway Patrol officers inspected 649 trucks or motor vehicles transporting livestock or livestock products on Montana highways.

**

Montana Highway Patrol officers issued 4,105 summonses for Gross Vehicle Weight Law, Size and Weight, and Motor Vehicle Registration Violations. Three full-time GVW crews, each under the supervision of a uniformed officer, were in operation throughout the year.

**

Fines and Forfeitures Collected.....\$402,309.57

Driver License Fees Collected.....\$618,620.00

SAFETY AND EDUCATION

1962

Naturally, training of our younger children in highway safety should start in the home. Bicycle and pedestrian safety should be expanded and taught as part of the curriculum in every school from kindergarten through the grades, laying the proper foundation and attitude so that when they are ready for driver training, it will be a continuation in safety, the same as any other subject. Driver training should be a prerequisite for every driver license.

The Department of Public Instruction reports that 36 of the 197 high schools in Montana are offering an approved course in driver education. At the present level, this will enable approximately one in every 15 children to receive driver training before receiving or being eligible to obtain a driver license. Efforts are now being made to increase the number of schools which will offer the driver training program. The past session of the Legislature killed a bill that would have made it possible for every high school in the State to offer approved driver training and receive financial aid. It is a proven fact that the students, who have received driver training in the 19 States which offer approved courses, have a better driving record and far less motor vehicle accidents than the students who do not receive this training. Of these 19 States, 4 require that a student must have completed an approved driver training course before a driver license can be issued. Perhaps we will be more convincing during the next legislative session. Approved driver training is an important factor in the reduction of motor vehicle fatalities among our young drivers. It is not the whole answer to greater highway safety by any means, but if it is adopted by all States along with other safety programs, it is certain that accidents will be reduced and more lives saved on our streets and highways.

Additional new safety films were purchased by the Montana Highway Patrol and shown to pre-school and all school age groups on every phase of vehicle and pedestrian safety, as well as every type of adult group. Many requests have been made for speakers, safety film and other traffic safety material. Over 85,000 pieces of safety literature were distributed by the Patrol and 600 personal appearances made by members of the Patrol before various schools, civic groups and other organizations interested in traffic safety. Many extra hours were put in by the officers of the Patrol in presenting these programs.

SAFETY AND EDUCATION

1962

Over 150,000 safety spot announcements were made by radio and TV stations. The news media are to be commended for their contribution of time and effort in promoting traffic safety. Without their help, our program would be far less effective.

The Montana Highway Patrol again assisted in promoting and conducting the Vehicle Safety-Check Program sponsored by the Auto Industries Highway Safety Committee. Great Falls, Montana, again won a National Award among cities of its size for the excellence of its program. Montana is one of the 31 States in which periodic compulsory vehicle inspection is not yet required by law. Even though our comparatively high accident rate may not be wholly attributable to the absence of such a program, many believe that systematic and compulsory inspection would be highly desirable. States with compulsory vehicle inspection show an average of 4.91 persons killed per 100 million miles of vehicle travel, while 19 States without compulsory vehicle inspection show an average of 6.05 persons killed per 100 million miles of vehicle travel. It has been said that the next best thing to a safe driver is a safe vehicle, and in reality the two always go together.

Driver training courses for instructors were again offered at Montana State University, Missoula, Montana, under the supervision of Dr. John Urlaub of Berkeley, California, with Supervisor Stephenson of the Montana Highway Patrol as his assistant. These courses will be offered again in 1963.

The Montana Outdoor Advertising Association again made an invaluable contribution to traffic safety by furnishing and displaying traffic safety posters.

The men of the Montana Highway Patrol are to be commended for a job well done in making Montana one of the 10 States that showed a reduction in fatalities in 1962 over 1961. However, we must continue, with our small force, to increase our safety and enforcement program to meet the continually increasing traffic problem.

HOW LONG DOES IT TAKE A MAN TO DIE

JUST SEVEN-TENTHS OF A SECOND

A car traveling along a highway at 55 miles an hour suddenly swerves and crashes into a solid immovable tree. Its driver is immediately subjected to a greater "G" force than was Colonel John Glenn when he made his historic flight from Cape Canaveral.

Colonel Glenn had a contour chair, shoulder harness and many other safety devices to help him withstand the terrific forces of sudden changes in speed. But a motorist on the highway has no such equipment—unless he is wearing a seat belt.

What are the forces the motorist is subjected to?

Here is the split second timetable for the car mentioned above:

1/10TH OF A SECOND:

The front bumper and chrome "frosting" of the grillwork collapse. Slivers of steel penetrate the tree to a depth of $1\frac{1}{2}$ inches.

2/10THS OF A SECOND:

The hood rises, crumples, smashes into the windshield. Spinning rear wheels leave the ground. The fenders come into contact with the tree, forcing the rear parts out over the front doors. The driver's body continues to move forward at the vehicle's original speed (20 times the normal force of gravity, his body weighs 3,200 pounds). His legs, ramrod straight, snap at the knee joints.

3/10THS OF A SECOND:

The driver's body is now off the seat, torso upright, broken knees pressing against the dashboard. The plastic and steel frame of the steering wheel begins to bend under his terrible death grip. His head is now near the sun visor, his chest above the steering column.

4/10THS OF A SECOND:

The car's front 24 inches have been demolished, but the rear end is still traveling about 35 miles per hour. The driver's body is still traveling at 55 miles per hour. The half ton motor block crunches into the tree.

5/10THS OF A SECOND:

The driver's fear-frozen hands bend the steering column into an almost vertical position. The force of gravity impales him on the steering shaft. Jagged steel punctures lung and intercostal arteries. Blood spurts into his lungs.

6/10THS OF A SECOND:

The driver's feet are ripped from his tightly-laced shoes. The brake pedal shears off at the floor boards. The chassis bends in the middle, shearing body bolts. The driver's head smashes into the windshield. The rear of the car begins its downward fall, spinning wheels digging into the ground.

7/10THS OF A SECOND:

The entire writhing body of the car is forced out of shape. Hinges tear, doors spring open. In one last convulsion, the seat rams forward, pinning the driver against the cruel steel of the steering shaft. Blood leaps from his mouth, shock has frozen his heart. He is now dead.

TIME ELAPSED, SEVEN-TENTHS OF A SECOND.

Just seven-tenths of a second. This is less time than it takes to say "accident." And, in this space of time an accident and death could have occurred.

UNPROTECTED BY SEAT BELTS ?

You Shouldn't Be !

MONTANA HIGHWAY PATROL

YEARLY ANALYSIS OF ACCIDENT REPORTS

January 1, 1962 - - December 31, 1962

Accidents Reported:		Accidents Investigated:	
US & State Highways	4,213	Highway Patrol	4,885
County & Rural Roads	2,335	Other Agencies	1,012
Cities & Towns	3,767		
		Total	5,897
Total	10,315		
		Accidents Not Investigated:	
Deaths Resulting	256		
Injuries (Non-fatal)	4,597	US & State Highways	720
		County & Rural Roads	814
		Cities & Towns	2,884
Drivers, Male	13,392		
Drivers, Female	2,658	Total	4,418
Drivers, Sex Not Stated	39		
Total Drivers Involved	16,089		

SUMMARY

<u>Month</u>	<u>Accidents Reported</u>	<u>Fatal Accidents</u>	<u>Deaths</u>	<u>Non-Fatal Injuries</u>	<u>Drivers Involved</u>	<u>Economic Loss</u>
January	937	10	11	252	1,568	\$ 1,870,000
